Mr Michael Miller  
Regional Executive General Manager  
Adelaide Brighton Cement PTY LTD  
P.O. Box 77  
PORT ADELAIDE SA 5015

Dear Mr Miller *Michael*

### Cement dust on solar panels

I have recently concluded a number of Street Corner Meetings in Birkenhead and Peterhead to discuss with residents the draft Environmental Improvement Plan that will be attached to your plant's operating licence.

At these meetings a number of residents raised their frustration about the impact Adelaide Brighton Cement's (ABC) dust emissions are having on their rooftop solar systems.

These residents state they have made a number of requests to ABC for someone to come out, inspect and clean their panels. They advise me that at this time, they are informed that ABC will not provide this service and residents are required to clean the panels themselves. This is not an option for many residents who do not feel confident scaling their roofs to do so.

When we met at your plant on the 17 July, we discussed a potential program to clean residents' solar panels as a show of good faith with the local community. I reiterate how important such a program would be to the local community.

On behalf of the residents of Birkenhead and Peterhead, I would appreciate your advice as to whether such a program can be delivered by ABC.

Yours sincerely
